

I'm strongly opposed to the National Association of Broadcaster's interference with XM Satellite Radio's ability to broadcast weather and traffic information. Especially as a resident of the DC metro area, where traffic can come to a grinding halt with the occurrence of the slightest fender-bender, I benefit greatly from the round-the-clock traffic offered by XM - a service I PAY for, by the way! If we, the XM audience, are willing to pay for this service, who is NAB to interfere?! Please reject petition 04-160 and allow the XM audience to continue benefitting from the service we demand and deserve.

Sincerely,

Linda Lee
